

**Job Description: Web Developer – Jersey, Channel Islands**

Due to our successful growth in the last twelve months, a new position has been created for a talented Web Developer based in our Jersey offices.

This is an excellent opportunity to get real experience on serious projects and have high levels of responsibility from the outset. This is a challenging role and the successful applicant will need to be a highly motivated self-starter.

We are looking for someone who is comfortable working in a small friendly team as well as independently, and who will be able to contribute from day one.

The ideal candidate should have a working industry experience of at least 1 year.

Knowledge in XHTML, CSS, Javascript and at least one web programming language is essential.

Development knowledge of Adobe Coldfusion and MySQL is not essential but would be of added benefit.

This really is an excellent opportunity for the right candidate.

Interested applicants should email their CV and portfolio (or links to recent work) to [peter@blueboxcreative.com](mailto:peter@blueboxcreative.com)

**Job Description:** Web Developer with experience in at least one programming language (e.g. PHP, ASP, Adobe Coldfusion). Knowledge of web standards, web design & SEO would be of added benefit.

**Desired Profile:**

Educated to Degree level or equivalent.

Experience in at least one web programming language (eg PHP, ASP, Coldfusion).

Excellent Working knowledge of XHTML, CSS and Javascript.

Experience using Photoshop, Flash & action scripting would be an advantage.

Experience with databases including MySQL, would be an advantage.

Well versed with web design concepts, Content Management, Database Design, SEO etc.

**Position:** Permanent.

**Salary:** Negotiable

**Location** Jersey, UK Channel Islands - must be locally residentially qualified (min 5 years residency in Jersey).
